EDUCATION

Vellore Institute of Technology, Chennai Campus

Bachelor of Technology in Computer Science, Specialisation in AI and ML

July 2022 – Present

CGPA: 8.67

EXPERIENCE

Machine Learning Intern

Grasim Industries (Aditya Birla Group)

June 2024 – July 2024

Veraval, Gujarat, India

- Developed a chatbot to help employees get information about the company's internal SAP instruction manuals and other SOPs, reducing the daily load on the IT helpdesk by 25%.
- Implemented Pinecone Vector DB's hybrid search with SPLADE, which almost doubled the accuracy when searching for exact terms, compared to dense vector search.
- Utilised Gemini API for LLM and embeddings, reducing the compute cost by 30% compared to OpenAI.

Competitive Programmer

Google Developer Groups

January 2023 – Present

VIT Chennai, India

- Authored problems for coding contests organized by GDG.
- Delivered a hands-on workshop on binary search to 100+ attendees
- Interviewed more than 30 students as a part of GDG's recruitment drive.

PROJECTS

Corrective RAG | *Langchain, Langgraph, Streamlit, FAISS, Gemini API, Docker*

June 2024

- Developed an implementation of arxiv.org/abs/2401.15884 using Langchain and Langgraph.
- Outperforms normal RAG in accuracy by 20% on all popular benchmarks and drastically reduces hallucinations.
- Harnesses FAISS for fast semantic similarity search over indexed data.
- Designed the UI in Streamlit and deployed it using Docker and Streamlit Share.

ZSL based NIDS for Zero Day Attacks | *Pandas, Scipy, Tensorflow, Keras, Seaborn*

April 2024

- Built an NIDS inspired by arxiv.org/abs/2109.14868 for the CICIDS2018 Dataset.
- Analysed accuracy, detection rates and F1-scores of all zero day attack scenarios. Used Wasserstein distance and Kolmogorov-Smirnov test statistic to find why certain attack types are difficult to detect.

Pocket Justitia | *Python, Flask, HTML/CSS, LLM API, SQL*

September 2023

- Created a one-stop portal for all legal needs, catering to 3 types of users - judges, lawyers and attendants.
- Designed the frontend using HTML and Tailwind CSS, backend using Flask and SQLAlchemy.

SKILLS

Languages: Python, Java, C/C++, SQL, Neo4j Cypher, JavaScript, HTML/CSS

Frameworks: React, Flask, FastAPI, Langchain, Tailwind

Developer Tools: Git, VS Code, Docker, Jupyter Notebook, Google Colab, Kaggle, MLflow, Huggingface

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, SciPy, Scikit-Learn, Tensorflow, Pytorch, Keras, OpenCV, Mediapipe, Transformers, Sentence Transformers

ACHIEVEMENTS

- Earned Reliance Foundation scholarship.
- Selected for ICPC Amritapuri Regionals 2024-25.
- Achieved Expert level on Codeforces(1670), 4 stars on Codechef (1948), Knight on Leetcode (1901).
- Attained global rank 22 in Codechef Starters 175, 427 in Codeforces Round 937, 500 in Leetcode Biweekly 148.

CERTIFICATIONS

- Foundation Level in Programming and Data Science from IIT Madras.
- Neo4j Certified Professional from Neo4j GraphAcademy.
- Networking Basics by Cisco.
