EDUCATION

Vellore Institute of Technology, Chennai Campus July 2022 – Present
Bachelor of Technology in Computer Science, Specialization in AI and ML CGPA: 8.64

EXPERIENCE

Software Developer (Remote) July 2025 – Present
STEP Conference Dubai, UAE

- Design and maintain event-specific web applications and custom tools to streamline operations and boost attendee engagement
- Provide end-to-end software support and implement user-driven enhancements for reliable performance
- Coordinate with marketing, sales, and event-operations teams to define requirements, manage timelines, and integrate digital solutions

Machine Learning Intern June 2024 – July 2024
Grasim Industries (Aditya Birla Group) Veraval, Gujarat, India

- Developed a chatbot to help employees get information about the company's internal SAP instruction manuals and other SOPs, reducing the daily load on the IT helpdesk by 25%
- Implemented Pinecone vector database's hybrid search with SPLADE, which almost doubled the accuracy when searching for exact terms, compared to dense vector search

Competitive Programmer January 2023 – June 2025
Google Developer Groups VIT Chennai, India

- Delivered a hands-on workshop on binary search to 100+ attendees
- Authored problems, conducted weekly discussions, interviewed new recruits

PROJECTS

Corrective RAG | *Langchain, Langgraph, Streamlit, FAISS, Gemini API, Docker* June 2024

- Developed an implementation of arxiv.org/abs/2401.15884 using Langchain and Langgraph
- Outperforms normal RAG in accuracy by 20% on all popular benchmarks and drastically reduces hallucinations
- Designed the UI in Streamlit and deployed it using Docker and Streamlit Share

ZSL based NIDS for Zero Day Attacks | *Pandas, Scipy, Tensorflow, Keras, Seaborn* April 2024

- Built a Network Intrusion Detection System inspired by arxiv.org/abs/2109.14868 for the CICIDS2018 Dataset
- Simulated zero day attack scenarios by training the model on known attacks and testing on the unknown attack
- Used Wasserstein distance and Kolmogorov-Smirnov test statistic to find why certain attack types are difficult to detect

SKILLS

Languages: Python, C/C++, SQL, Neo4j Cypher, Java, HTML/CSS

Frameworks: Flask, FastAPI, Langchain, Tailwind

Developer Tools: Git, VS Code, Docker, Jupyter Notebook, Google Colab, Kaggle, Huggingface

Libraries: Pandas, NumPy, Tensorflow, Pytorch, Keras, OpenCV, Mediapipe, Transformers, Sentence Transformers

ACHIEVEMENTS

- Earned Reliance Foundation scholarship
- Selected for ICPC Amritapuri Regionals 2024-25
- Achieved Expert level on Codeforces(1717), 5 stars on Codechef (2045), Guardian on Leetcode (2141)
- Attained global rank 22 in Codechef Starters 195, 392 in Codeforces Round 1025, 411 in Leetcode Biweekly 156

CERTIFICATIONS

- Foundation Level in Programming and Data Science from IIT Madras
- Neo4j Certified Professional from Neo4j GraphAcademy
- Networking Basics by Cisco
