EDUCATION

Vellore Institute of Technology, Chennai Campus

July 2022 – July 2026

Bachelor of Technology in Computer Science, Specialization in AI and ML

CGPA: 8.53

EXPERIENCE

Software Engineer Intern

Jan 2026 – June 2026

Cisco Systems, Inc.

Bengaluru, India

- Worked on a Multi-Agent orchestration pipeline to generate ground truth dataset out of Webex transcripts to evaluate meeting summaries.
- Architected the observability stack with Logstash and OpenSearch to manage system state, trace metrics, and ensure pipeline reliability.
- Refactored and modularized the FastAPI backend to improve codebase maintainability and ease of development.

Software Developer (Remote)

May 2025 – Dec 2025

STEP Conference

Dubai, UAE

- **Uniqorn (Startup-Investor Matchmaking Platform):** Architected an 11-table PostgreSQL schema, LLM based match score engine and an SMTP pipeline to send out calendar invitations.
- **Buzz (Dynamic Marketing Asset Generator):** Engineered a live SVG editing platform, optimizing high-throughput asset delivery via an LRU-cached, dual-path storage layer (Nginx disk + SQLite fallback).
- **Step Assistant (Agentic RAG Chatbot):** Architected a stateful LangGraph RAG agent, managing high-concurrency WhatsApp webhooks via per-user mutex locking and debounced SQLite persistence.

Machine Learning Intern

June 2024 – July 2024

Grasim Industries (Aditya Birla Group)

Veraval, India

- Engineered a RAG pipeline over internal SAP manuals using Pinecone's hybrid search with SPLADE, reducing IT helpdesk load by 25%.

PROJECTS

Vault | Live Link | Golang, Gin, PostgreSQL, MinIO, Clerk, Docker

- Architected a Go/Gin storage backend, optimizing server memory by routing transfers directly to MinIO via presigned URLs.
- Engineered SHA-256 deduplication with strict database reference counting to prevent physical storage bloat and orphaned objects.
- Designed a PostgreSQL schema to natively enforce per-user storage quotas, API rate limiting, and short-TTL public share links.

Corrective RAG | Live Link | Langchain, Langgraph, Streamlit, FAISS, Docker

- Engineered an early implementation of arxiv.org/abs/2401.15884 using Langchain and Langgraph.
- Gained open-source traction for translating frontier AI research into a production-ready, containerized app.

SKILLS

Languages: Python (PyPy), Golang, C/C++, Java, SQL, Neo4j Cypher

Frameworks: FastAPI, Flask, Gin, GORM, SQLAlchemy, LangChain, LangGraph, Tensorflow, Pytorch

Databases/Storages: PostgreSQL, Redis, MinIO, AWS S3, MongoDB, Neo4j, Pinecone, FAISS, Qdrant

Developer Tools: Git, Docker, Podman, Nginx, Linux(Ubuntu), systemd, VS Code

ACHIEVEMENTS AND CO-CURRICULARS

- Earned Reliance Foundation scholarship.
- Selected for ICPC Amritapuri Regionals 2024-25.
- Achieved Expert level on Codeforces (1749), 5 stars on Codechef (2045), Guardian on Leetcode (2288) and 4 Kyu on Atcoder (1399) utilizing highly optimized Python and PyPy for advanced algorithmic problem-solving.
- Attained global rank 22 in Codechef Starters 195, 151 in Leetcode Weekly 492, 188 in Codeforces Round 1047 and 759 in Atcoder Beginner Contest 437.
- Authored problems, delivered workshops, interviewed 70+ new recruits and conducted 50+ weekly discussions for Google Developer Group, VIT Chennai.

CERTIFICATIONS

- Deep Learning Specialization from DeepLearning.AI (Coursera)
- Neo4j Certified Professional from Neo4j GraphAcademy
